Activity 4.2 **Storyboard Template**

Create a three- to six-frame Storyboard that teaches others about examples of hazards to avoid when handling a horse in the following three contexts:

- Approaching the horse
- Handling the horse
- Transporting the horse

You can design your three- to six-frame Storyboard for a video production, website or comic strip.

- Use sketches, written directions and descriptions for a video production Storyboard.
- Use simple screen capture sketches for a website Storyboard.
- Use comic style drawings and short text balloons for a comic strip Storyboard.
